

No.	Picture	Description	Usage
1		Stainless Steel Seamless Tube/Pipe	
2		Stainless Steel Tube - AP heat treated	Heat Exchanger

No.	Picture	Description	Usage
3		Copper Alloy Tube	
4		Special Aluminum Tube	

No.	Picture	Description	Usage
5		Instrument Tube / Precision Tube	Nuclear Power Plant Semiconductor Automotive Instrument
6		Stainless Steel Tube - BA heat treated	Heat Exchanger

No.	Picture	Description	Usage
7		Weld and Redrawn Tube / Small Diameter Tube	Medical Electronic Electric Center Pin Etc.
8		Weld and Redrawn Tube / Small Diameter Tube	Medical Electronic Electric Center Pin Etc.

No.	Picture	Description	Usage
9		Weld and Redrawn Tube / Small Diameter Tube	Medical Electronic Electric Center Pin Etc.
10		High Pressure Stainless Tube	Nuclear Power Plant High Pressure Tube

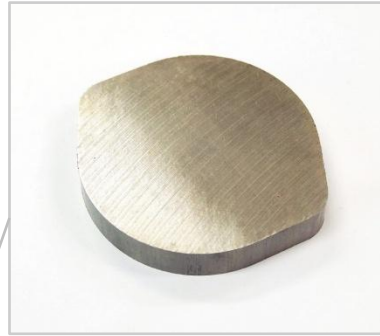

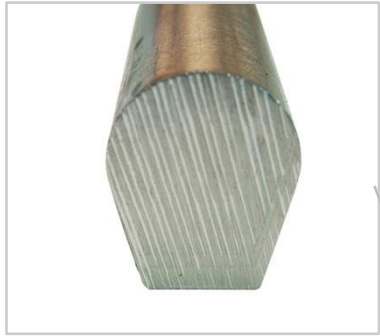

No.	Picture	Description	Usage
11		High Precision Tube	Automotive Power Plant Aerospace Instrument Etc.
12		Precision Tube for Automotive	Automotive

No.	Picture	Description	Usage
13		Precision Tube for Automotive	
14		Precision Tube for Automotive	Automotive shock absorber

No.	Picture	Description	Usage
15	 A precision tube for automotive use, featuring a black cylindrical body with a silver spring and a grey mounting bracket.	Precision Tube for Automotive	Automotive shock absorber
16	 A collection of five irregular stainless steel tubes of varying lengths and diameters, arranged diagonally.	Irregular Stainless Steel Tube	

No.	Picture	Description	Usage
17		<p>Multiple-Layered Tube (Copper, Al, Bronze)</p>	<p>Seawater Desalination</p>
18		<p>Multiple-Layered Tube (Stainless, Copper, Bronze)</p>	

No.	Picture	Description	Usage
19		Parts of an Automotive	High Speed Motor of Automotive
20		Tube for High-temperature Battery	Lithium Battery
